Valsartan NDMA genotoxic impurity topic

Novartis/Huahai management meeting on July 6th, 2018

Dear Mr. Cai

We follow up on the Novartis/Huahai management meeting held on July 6th, 2018. During that meeting, Zhejiang Huahai Pharmaceutical Co., Ltd ("Huahai") and Novartis (represented *inter alia* by its External Supply Organization Head for Anti-infectives & Chemicals, Mr. Erich Battanta), agreed that all the Valsartan API batches delivered so far by Huahai to Novartis International Pharmaceuticals Ltd., Branch Ireland ("NIPBI") show the presence of a genotoxic impurity, namely N-Nitrosodimethylamine (NDMA). Further, in the meeting you agreed to take back any delivered product which has not been used by NIPBI so far. Please let us know whether your company has a different understanding about the outcome of the meeting on July 6th, 2018 regarding the abovementioned aspects.

In order to specify the product which NIPBI is going to return, please see the attached Excel sheet. Product which is not marked in green has not yet been used and will be returned to your company. Our supply chain managers will get in touch with your company to arrange details for the returning of such product. The product marked in green was already used by NIPBI. The return of unused batches will have to be done at your company's cost.

NIPBI reserves any additional rights and legal remedies it may have with regard to costs incurred and damages or harm suffered (including, without limits, manufacturing capacity and/or other resources spent on this project).

For the avoidance of doubt, we expect that Huahai will honour its contractual obligations under any other commercial arrangements between Novartis and Huahai.

Yours sincerely,

[name] LUKE CONWAY

[function] SOURCING.
